

The Cyber Security Summit is continuing with its virtual series of regional, interactive educational engagements - the **Cyber Power Hour**.

The next West Power Hour will be **Thursday, June 25<sup>th</sup>** and will feature experts from the **Secret Service, US DHS**, and innovative tech companies who will lead discussions on the latest security challenges and solutions to implement to protect against cyber attacks.

These Power Hours are **FREE** to attend by invitation only and space is limited. However, InfraGard has proudly partnered with the Cyber Security Summit to offer our members exclusive access to participate each month.

To RSVP, enter registration code **INFRAGARD20SAC** at <https://cybersummitusa.com/powerhour-june25/>

You are welcome to share this invitation with your IT Security Team also.

Please note: This virtual event is for FBI/Government, C-Suite/Senior Level Executives, Directors, Managers, and other IT Professionals. Those in Sales/Marketing and Students are not permitted to attend.

Partial list of Security Fast Tracks:

- Opening Security Briefing from the Secret Service
- How to Protect the Dynamic Workforce – with Cyber AI presented by Darktrace
- Vendor Consolidation and Rationalization presented by Check Point Software Technologies
- Closing Security Briefing from the US DHS – Business Reopening Strategies; No Cost CISA Resources

You will earn 1 CPE / CEU Credit with your completion of this Power Hour.

Attendance is limited. Please RSVP today to confirm your participation.
